Louvers

Soffit Louvers offer the perfect blend of style and functionality while beautifully mimicking the natural look and feel of real wood. Designed for versatility, they can be used on both ceilings and walls, making them suitable for a variety of applications.

With advanced interlocking technology, Soffit Louvers are easy to install and provide a seamless, elegant finish.
A major advantage is that they require no plywood backing, which helps reduce installation time and costs while ensuring long-lasting durability. As a practical and cost-effective alternative to traditional wooden finishes, Soffit Louvers are the ideal choice for those seeking durability, functionality, and aesthetic appeal.

SQUARE
UPVC FINS

Rsquare Upvc Fins provides tailored solutions with custom sizing for its premium Soffit Panels, offering lengths ranging from 2.1m to more than 6m to create a seamless and visually stunning finish. Custom sizing not only enhances the aesthetics of your space but also delivers significant cost efficiency, especially for large-scale project orders, by minimising material wastage and reducing installation effort.
