MANUFACTURER - FABRICATOR - EXPORTERS

UPVC BAFFLECEILING

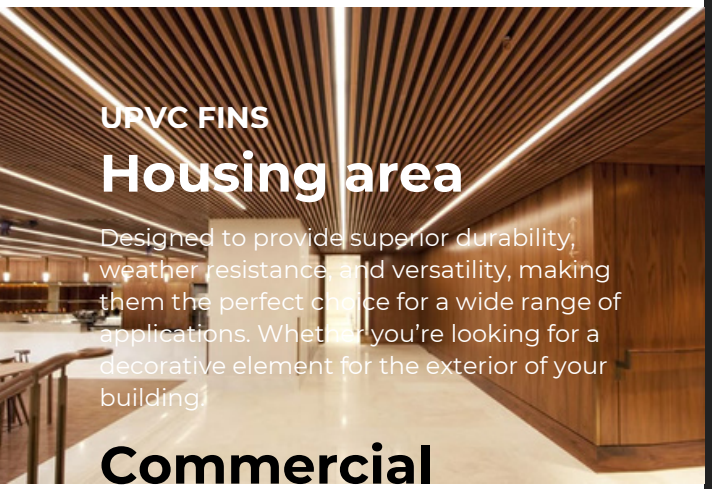

- **50 MM X 50 MM**
- **50 MM X 75 MM**
- **50 MM X 100 MM**

ADVANTAGE OF UPVC FINS

- Upvc fins enhance the architectural appearance of the building structure.
- It's an inexpensive alternative as compared to other materials.
- It Allows significant amount of light in the building while reducing direct heat absorption in the building structure, thereby Protecting pipes and ducts against the ill effects of direct sunlight.
- Can be installed in new or existing building.
- Creates a visual block yet allow passage of cool air thereby reducing energy cost

UPVC FINS

Housing area

Designed to provide superior durability, weather resistance, and versatility, making them the perfect choice for a wide range of applications. Whether you're looking for a decorative element for the exterior of your building

Commercial

Engineered to withstand the harshest weather conditions, including extreme temperatures and UV radiation, without fading or deteriorating over time. This means that they will maintain their color and appearance for many years, with minimal maintenance required.
